Quick Details

Classification:

Sulfonic Acid

CAS No.:

121-57-3

Other Names:

Sulfanilic Acid,Sulphanilic Acid Tech Grade

MF:

C6H7NO3S

Place of Origin:

Hebei, China (Mainland)

Grade Standard:

Food Grade, Industrial Grade, Medicine Grade

Purity:

99% min

Application:

Dyes intermediates

Brand Name:

DITAI

Model Number:

99% min

Aniline:

0.02% max

Packaging & Delivery

Packaging Details

Packing: in 25kgs plastic woven bag, 18mts/20'fcl

in 350kgs , 500kgs or 750kgs jumbo bag l

Delivery Time

Deliver goods during 7 days after receiving order

product description

Description

Sulphanillic Acid is a kind of white to off-white cystalline. It's hydrate loses moisture

at 100 ℃, and anhydrous carbide begins to decompose at 280 ℃.

Sulphanillic Acid slightly soluble in cold water, insoluble in ethanol, ether and benzene,

soluble in sodium hydroxide solution and sodium carbonate solution.

Sulphanillic Acid has a very significant acidity.
